PROJECTS

TRai , AI Trip Planner

Jan 2026

Developed an AI trip planner which allows users to generate personalized travel itineraries by simply entering a destination name and the number of days they plan to stay.

MERN, Google OAuth, Tailwind CSS, Gemini, React Router dom

KaviosPix , Image Sharing App

Jan 2026

Developed an API-based image management system where users can create albums, share them with others, and upload images with various metadata.

MERN, Google OAuth, Bootstrap, Cloudinary, JWT, Gemini, React Router dom

Anvaya , CRM

Oct 2025

Developed a full-stack CRM application for lead tracking for a simulated sales team. Implemented recharts for visual insights on lead progress, enabling data-driven decision-making.

MERN, Bootstrap, React Router, recharts
